HALF YEARLY MEETING

SPEAKER: IAN BROWN

Director of the Basingstoke Canal Authority

St Andrew's Church Hall Frimley Green

Friday 5th October 2007 at 8:00 pm

The Basingstoke canal is a major public amenity as well as a crucial water management structure in the area with a robust relationship with our three villages. The canal has a positive impact on the local area by delivering recreation and conservation as well as protecting its heritage. Mr Brown will speak about the future of the canal, its sustainability and how it can meet the public's expectations.

Come to hear an interesting and informative speaker, to meet local councillors and MP, to join in an open forum and socialise with neighbours.
